# Risks and Uncertainties Statement

## **Regulation G**

The attached charts include Company information that does not conform to generally accepted accounting principles (“GAAP”). Management believes that an analysis of this data is meaningful to investors because it provides insight with respect to ongoing operating results of the Company and allows investors to better evaluate the financial results of the Company. These measures should not be viewed as an alternative to GAAP measures of performance. Furthermore, these measures may not be consistent with similar measures provided by other companies. This data should be read in conjunction with the Company’s most recent annual report filed on Form 10-K as well as the third quarter earnings news release dated October 26, 2017, which has been furnished to the SEC on Form 8-K and the Company’s Form 10-Q for the quarterly period ended September 30, 2017, which has been filed with the SEC.

## **Forward-Looking Statements**

This presentation contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933 and Section 21E of the Securities Exchange Act of 1934. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those projected in such statements. A major risk is that demand for the Company's products and services is largely derived from the demand for its customers' products, which subjects the Company to uncertainties related to downturns in a customer's business and unanticipated customer production shutdowns. Other major risks and uncertainties include, but are not limited to, significant increases in raw material costs, customer financial stability, worldwide economic and political conditions, foreign currency fluctuations, significant changes in applicable tax rates and regulations, future terrorist attacks and other acts of violence. Other factors, including those related to the previously announced Houghton combination (“the Combination”), could also adversely affect us including, but not limited to:

- the risk that a required regulatory approval will not be obtained or is subject to conditions that are not anticipated or acceptable to us;
- the potential for regulatory authorities to require divestitures in connection with the Combination, which would result in a smaller than anticipated combined business;
- the risk that a closing condition to the Combination may not be satisfied in a timely manner;
- risks associated with the financing of the Combination;
- the occurrence of any event, change or other circumstance that could give rise to the termination of the share purchase agreement;
- potential adverse effects on Quaker Chemical’s business, properties or operations caused by the implementation of the Combination;
- Quaker Chemical’s ability to promptly, efficiently and effectively integrate the operations of Houghton International and Quaker Chemical;
- risks related to each company’s distraction from ongoing business operations due to the Combination; and,
- the outcome of any legal proceedings that may be instituted against the companies following announcement of the share purchase agreement and transactions contemplated therein.

Therefore, we caution you not to place undue reliance on our forward-looking statements. For more information regarding these risks and uncertainties as well as certain additional risks that we face, you should refer to the Risk Factors detailed in Item 1A of our Form 10-K for the year ended December 31, 2016, the proxy statement filed on July 31, 2017 and in our quarterly and other reports filed from time to time with the Commission. We do not intend to, and we disclaim any duty or obligation to, update or revise any forward-looking statements to reflect new information or future events or for any other reason. This discussion is provided as permitted by the Private Securities Litigation Reform Act of 1995.

# Third Quarter 2017 Headlines

- **12% growth in net sales primarily driven by strong volume increase of 7%**
- **Net income of \$11.1 million and earnings per diluted share of \$0.83 includes the impact of \$9.7 million or \$0.52 per diluted share of Houghton combination-related expenses**
- **6% increase in non-GAAP earnings per diluted share to \$1.32**
- **Solid earnings drives 4% increase in adjusted EBITDA to \$29.4 million**

# Chairman Comments

*Third Quarter 2017*

## ■ Third Quarter 2017

- ✓ Net sales of \$212.9 million driven by increases in organic volume on continued market share gains and increased production in some end markets
- ✓ Strong volumes drove higher gross profit despite a decline in gross margin primarily due to higher raw material costs and changes in product mix
- ✓ Operating income benefited from continued discipline in managing SG&A, leveraging significant net sales growth in the quarter
- ✓ Strong operating performance coupled with a lower tax rate drove a 6% increase in non-GAAP earnings per diluted share to \$1.32 and a 4% increase in adjusted EBITDA to \$29.4 million

## ■ 2017 Outlook

- ✓ Market share gains and leveraging of past acquisitions will continue to help offset market challenges
- ✓ Expect gross margins to trend upwards over the next few quarters, gradually heading back to the 37% target

***Overall, we remain confident in our future and expect 2017 to be another good year for Quaker, as we expect to increase non-GAAP earnings and adjusted EBITDA for the eighth consecutive year***

**Chart #3**

# Financial Highlights

*Third Quarter 2017*

- **Net sales increase of 12% due to organic volume growth of 5%, increases primarily from the Q4'16 acquisition of Lubricor of 2%, an increase from changes in price and product mix of 3% and a positive impact from FX of 2%**
- **Lower gross margin of 35.1% in Q3'17 compared to 37.2% in Q3'16 primarily due to changes in raw material costs and the mix of certain products sold**
- **Houghton combination-related expenses of \$9.7 million or \$0.52 per diluted share in Q3'17 compared to \$1.2 million or \$0.08 per diluted share in Q3'16**
- **Operating income benefited from continued discipline in managing SG&A costs, leveraging significant sales growth**
- **Lower effective tax rate of 22.1% due to a current year accounting standard adoption**
- **Positive impact from FX translation of approximately 1% or \$0.02 per diluted share**
- **Non-GAAP EPS of \$1.32 up 6% and adjusted EBITDA of \$29.4 million up 4%**
- **Year-to-date net operating cash flow of \$40.8 million compared to \$53.0 million in the prior year period, primarily due to outflows of \$12.7 million for Houghton combination-related expenses in the current year and higher levels of cash invested in working capital due to Company's strong sales growth**
