

Mining Compliance Solutions at The Bluefield Coal Show 2019

September 4, 2019

Quaker Houghton Features Dust Suppressants and Ground Control Agents

CONSHOHOCKEN, Pa., Sept. 4, 2019 /PRNewswire/ -- Quaker Houghton (NYSE:KWR) will be showcasing how its **DUSTGRIP® Dust Suppressants**, and **MINETECH™ Ground Control Agents** support a safer mining work environment and offer compliance solutions at the **2019 Bluefield Coal Show**, September 11th - September 13th 2019, in Bluefield WV, USA. (<http://www.bluefieldchamber.com/bluefield-coal-show>).

In alignment with complying with the Mine, Safety, and Health Administration's (MSHA's) regulations that lowered the level of respirable dust from 2.0 mg/m³ to 1.5 mg/m³, Quaker Houghton offers DUSTGRIP®, a family of dust suppressant products, that includes a solid material product, **DUSTGRIP® JFP-95** (https://home.quakerhoughton.com/wp-content/uploads/pdf/industry/mining/bro_MSHA_Dust_Suppression_DUSTGRIP_JFP-95_EN_AM.pdf).

This product:

- Reduces the generation of airborne particulate matter from mines, roads, stockpiles, rail hauls, construction sites, quarries and other areas where air-born dust is a problem
- Support site safety for workers by effectively lowering levels of respirable coal mine dust, and quartz
- Allows for localized application of dust suppressant, so the mine can treat the area where there is a respirable dust or quartz issue, instead of treating the entire mine, lowering costs

Designed to consolidate and stabilize unstable ground, as well as seal against water ingress, **MINETECH™ Ground Control Agents** feature:

- Good penetration into small cracks and fissures for ground consolidation and stabilization, in the event of fractured and unstable ground
- High adhesive strength
- Outstanding mechanical properties and flexibility to be an effective ground consolidation and stabilization tool

Quaker Houghton's full mining portfolio of compliance solutions, (https://home.quakerhoughton.com/wp-content/uploads/pdf/industry/mining/bro_mining_core_products_EN_AM.pdf), ranging from dust suppressants, ground control agents and longwall fluids to fire-resistant hydraulic fluids, gear lubricants and greases, will be featured at the 2019 Bluefield Coal Show from September 11th – 13th at the Brushfork Armory Civic Center in Bluefield WV - **Booth 207**.
