

### **Quaker Chemical Corporation Announces First Quarter 2011 Results**

April 26, 2011

- Strong quarterly sales up 25% to \$159.9 million from Q1 2010
- Q1 2011 diluted EPS of \$0.91 vs. \$0.84 diluted EPS in Q1 2010
  - Product volumes higher than Q1 2010 by 16%

CONSHOHOCKEN, Pa., April 26, 2011 /PRNewswire via COMTEX/ --

Quaker Chemical Corporation (NYSE: KWR) today announced net sales of \$159.9 million and earnings per diluted share of \$0.91 for the first quarter of 2011, up 25% and 8%, respectively, compared to net sales of \$128.3 million and earnings per diluted share of \$0.84 for the first quarter of 2010.

Michael F. Barry, Chairman, Chief Executive Officer and President, commented, "We are off to a good start in 2011, despite the continuing challenge of escalating raw material costs. We are and will be implementing additional price increases as part of our ongoing effort to restore our margins to more acceptable levels. However, our profitability continues to grow due to good demand in our base markets, new business gained and the contribution from our recent acquisitions."

Mr. Barry further stated, "Despite the uncertainties in the raw material markets and global economies, our goal for 2011 remains to build upon the profitability we achieved in 2010. With our leadership positions in both the emerging and mature markets, as well as our organic and external growth opportunities, I remain confident in our prospects for 2011 and beyond."

#### First Quarter 2011 Summary

Net sales for the first quarter of 2011 were \$159.9 million, an increase of 25% from \$128.3 million in the first quarter of 2010. The increase in net sales was primarily the result of higher volumes and selling prices across the globe. Product volumes were higher by approximately 16% including the effects of acquisitions. Selling prices and mix increased revenues by approximately 7%, as the Company continues to implement price increases to help offset higher raw material costs. Foreign exchange rates also increased revenues by approximately 2%.

Gross profit increased by approximately \$5.4 million, but gross margin decreased from 36.9% in the first quarter of 2010 to 33% in the first quarter of 2011, as raw material costs continued to escalate, particularly in the first quarter of 2011. The Company continues to implement price increases to recover these higher costs.

Selling, general and administrative expenses ("SG&A") increased approximately \$5.0 million compared to the first quarter of 2010. Higher selling costs on increased business activity, our 2010 acquisitions, foreign exchange rate translation and higher professional fees accounted for approximately 62% of the increase. Higher inflationary and other costs partially offset by lower incentive compensation accounted for the remainder of the increase. SG&A as a percentage of sales decreased to 24.2% in the first quarter of 2011 from 26.2% in the first quarter of 2010. Net interest expense decreased due to lower interest rates despite higher average borrowings. Equity in net income of associated companies increased compared to the first quarter of 2010 as the prior year quarter reflected a charge of approximately \$0.03 per diluted share related to the first quarter 2010 devaluation of the Venezuelan Bolivar Fuerte.

The Company's low first quarter 2011 and 2010 effective tax rates include the expiration of applicable statutes of limitations for uncertain tax positions of approximately \$0.11 per diluted share, in each period. The Company has experienced and expects to further experience volatility in its quarterly effective tax rates due to the varying timing of tax audits and the expiration of applicable statutes of limitations as they relate to uncertain tax positions. However, the Company expects a higher effective tax rate for the full year 2011 as compared to the first quarter 2011 rate.

#### **Balance Sheet and Cash Flow Items**

Debt increased from December 31, 2010 due to higher working capital requirements on increased business activity, as well as the timing of payments related to incentive compensation.

#### **Forward-Looking Statements**

This release contains forward-looking statements that are subject to certain risks and uncertainties that could cause actual results to differ materially from those projected in such statements. A major risk is that the Company's demand is largely derived from the demand for its customers' products, which subjects the Company to downturns in a customer's business and unanticipated customer production shutdowns. Other major risks and uncertainties include, but are not limited to, significant increases in raw material costs, customer financial stability, worldwide economic and political conditions, foreign currency fluctuations, and future terrorist attacks such as those that occurred on September 11, 2001. Other factors could also adversely affect us. Therefore, we caution you not to place undue reliance on our forward-looking statements. This discussion is provided as permitted by the Private Securities Litigation Reform Act of 1995.

#### **Conference Call**

As previously announced, Quaker Chemical's investor conference call to discuss first quarter results is scheduled for April 27, 2011 at 8:30 a.m. (ET). A live webcast of the conference call, together with supplemental information, can be accessed through the Company's Investor Relations Web site at <a href="http://www.quakerchem.com">http://www.quakerchem.com</a>. You can also access the conference call by dialing 877-269-7756.

#### **About Quaker**
