Quaker Houghton Releases its 2023 Sustainability Report

CONSHOHOCKEN, PA., April 22, 2024 /PRNewswire/ -- Quaker Houghton (NYSE: KWR) the global leader in industrial process fluids, today announced the release of its 2023 Sustainability Report. The report highlights how the Company combines its solutions with industry insight and intelligence to See Beyond™ the issues of today and secure a better tomorrow.

Andy Tometich, Chief Executive Officer and President commented, “In 2023, we continued to advance our sustainability initiatives, making targeted investments to strengthen the foundation of our integrated strategy. The achievement of our 2023 milestones and the EcoVadis Silver Award are clear indications of the progress we are making towards our 2030 Sustainability Goals. I am proud of the momentum we have built and the unwavering commitment to unlock our potential and positively impact the future of our Company, our people, and our communities.”

Quaker Houghton’s 2023 Sustainability Report details the progress the Company has made and its commitment to its ongoing sustainability journey. Highlights from report include:

- More than 26,000 metric tons of waste was eliminated in 2023 at QH FLUIDCARE™ partner locations, and over 47,000 metric tons have been eliminated since 2022
- 71% of our global energy consumption is renewably sourced via grid, solar, and purchased contracts
- Obtained ISO 14001 certification at all non-U.S. manufacturing locations
- 100% of our direct suppliers above \$100k spend commit to our Supplier Code of Conduct.
- Achieved all 2023 milestones; Established new 2025 milestones for each of our pillars
