Quaker Houghton Investor Presentation
September 2019

Risks and Uncertainties Statement

Regulation G

The attached charts include Company information that does not conform to generally accepted accounting principles ("GAAP"). Management believes that an analysis of this data is meaningful to investors because it provides insight with respect to ongoing operating results of the Company and allows investors to better evaluate the financial results of the Company. These measures should not be viewed as an alternative to GAAP measures of performance. Furthermore, these measures may not be consistent with similar measures provided by other companies. This data should be read in conjunction with the Company's most recent annual report filed on form 10-K and 10-K/A as well as the second quarter earnings news release dated August 1, 2019, which has been furnished to the Securities and Exchange Commission ("SEC") on Form 8-K and the Company's Form 10-Q for the period ended June 30, 2019, which has been filed with the SEC.

Forward-Looking Statements

This presentation contains "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. These statements can be identified by the fact that they do not relate strictly to historical or current facts. We have based these forward-looking statements on our current expectations about future events. These forward-looking statements include statements with respect to our beliefs, plans, objectives, goals, expectations, anticipations, intentions, financial condition, results of operations, future performance, and business, including but not limited to statements relating to the potential benefits of the Combination described above, our current and future results and plans, and statements that include the words "may," "could," "should," "would," "believe," "expect," "anticipate," "estimate," "intend," "plan" or similar expressions. These forward-looking statements are subject to certain risks and uncertainties that could cause actual results to differ materially from those projected in such statements. A major risk is that demand for the Company's products and services is largely derived from the demand for its customers' products, which subjects the Company to uncertainties related to downturns in a customer's business and unanticipated customer production shutdowns. Other major risks and uncertainties include, but are not limited to, significant increases in raw material costs, customer financial stability, worldwide economic and political conditions, foreign currency fluctuations, significant changes in applicable tax rates and regulations, future terrorist attacks and other acts of violence. Furthermore, the Company is subject to the same business cycles as those experienced by steel, automobile, aircraft, appliance, and durable goods manufacturers. Our forward-looking statements are subject to risks, uncertainties and assumptions about the Company and its operations that are subject to change based on various important factors, some of which are beyond our control. These risks, uncertainties, and possible inaccurate assumptions relevant to the Company's business could cause its results to differ materially from expected and historical results. Other factors beyond those discussed in this Report could also adversely affect us including, but not limited to the following related to the Combination:

- potential adverse effects on the Company's business, properties or operations caused by the implementation of the Combination;
- the Company's ability to promptly, efficiently and effectively integrate the operations of Houghton and Quaker Chemical;
- the ability to develop or modify financial reporting, information systems and other related financial tools to ensure overall financial integrity and adequacy of internal control procedures;
- the ability to identify and take advantage of potential synergies, including cost reduction opportunities, while maintaining legacy business and other related attributes, as well as the risk that the costs to achieve synergies may be more than anticipated;
- difficulties in managing a larger, combined company, addressing differences in business culture and retaining key personnel;
- risks related to each company's distraction from ongoing business operations due to the Combination; and,
- the outcome of any legal proceedings that may be instituted against the companies related to the Combination.

Therefore, we caution you not to place undue reliance on our forward-looking statements. For more information regarding these risks and uncertainties as well as certain additional risks that we face, you should refer to the Risk Factors detailed in Item 1A of our Form 10-K for the year ended December 31, 2018 as well as the proxy statement the company filed on July 31, 2017 and in our quarterly and other reports filed from time to time with the SEC. We do not intend to, and we disclaim any duty or obligation to, update or revise any forward-looking statements to reflect new information or future events or for any other reason. This discussion is provided as permitted by the Private Securities Litigation Reform Act of 1995.

Company with Stronger Market Presence

● Quaker ● Houghton ● Both Strong

Nearly Doubles Our Size and Scale

BEFORE:

Focused on a limited set of markets with primarily large customers

NOW:

At nearly 2x our previous size, we have a leadership position in a more diverse set of markets

Significantly increases presence in \$10B+ market

Strengthens Product Portfolio: Broader and Deeper

Enhances Global Footprint

Mexico

Quaker had local manufacturing while Houghton did not; opportunity to better serve the customer and reduce cost

South America

Broadens footprint in Brazil and Argentina, as well as expands presence in other South American countries

Germany

Houghton had local manufacturing while Quaker did not, providing infrastructure in a leading automotive country and a closer export base to Eastern Europe

India

Quaker had local manufacturing while Houghton did not; opportunity to better serve the customer and reduce cost

Thailand

Houghton adds Thailand manufacturing capabilities to better serve existing customers

South Korea

Establishes a presence in a growing market where Quaker previously did not participate

Enhanced Financial Profile, Better Together

^{a)} Column includes Quaker and Houghton's TTM 6/30/2019 financials as presented, adjusted for synergies and divestiture estimates.

Strong Free Cash Flow Supports Key Capital Allocation Priorities

- De-lever to 2x - 2.5x net debt to adjusted EBITDA within two years
- Combined company has asset-lite profile with expected capex of ~1.5% of sales after two years; expect ~2% in first two years
- Pay dividends consistent with Quaker's practice over past 47 years
- Continue strategic acquisitions considering leverage and liquidity

Quaker Houghton Combination Summary

- Combination nearly doubles the size of either company
- Cost synergies increased to \$60 million from \$45 million
- Continued above market growth of 2-4% expected beginning year 2
 - Differentiated customer intimate business model
 - Cross-selling synergies become visible after year 1
- Debt structure flexible and low cost to meet strategic needs going forward
 - Allows for continued strategic investments and smaller acquisitions in the short term
 - Expect to be below 2.5x net debt to adjusted EBITDA within 2 years

Quaker Houghton: A Market Leader Positioned for Growth

By August 2021, we expect:

- To have achieved our cost synergies and be a \$300+ million EBITDA company on a going forward basis
- Be positioned for organic growth 2 to 4% above the market
- Be at our target leverage range and positioned for greater acquisition opportunities

Attractive Financing and Ample Liquidity

- **\$1.15 billion syndicated bank facility**
 - \$400 million revolver (~\$180 million funded at close)
 - \$600 million Term Loan A
 - \$150 million (euro-equivalent) Term Loan A
- **\$930 million in new debt to finance transaction**
 - ~\$170.8 million for cash portion of purchase price, ~\$700 million for refinancing of Houghton's gross debt, and ~\$60 million for refinancing of existing Quaker debt, and fees and expenses
- **~\$220 million remains undrawn on the revolver providing ample liquidity; also have ability to upsize by \$300 million**
- **Attractive cost of debt and terms**
 - ~3.4% - 3.6% at today's rates

Accounting and Other Adjustments to Financials

- Net sales decrease of ~\$30-\$40 million due to conforming of accounting policies including revenue recognition; minimal impact to consolidated EBITDA
- Total depreciation and amortization expense estimate at close of ~\$85 million per year, including ~\$10 million due to estimated purchase accounting adjustments
- One-time expenses related to integration and achieving cost synergies estimated to be ~1x cost synergies (~\$60 million); timing of one-time expenses will be front loaded in 2019 and 2020
- Interest expense of ~3.4-3.6% reduces combined interest cost by \$20-25 million per year
- Non-GAAP tax rate estimates: Q3 '19: 25-27%; Q4 '19: 19-21%; Full year 2020: 22-24%
- Share count increases ~4.3 million shares to ~17.6 million shares

Divestiture Update

- The U.S. Federal Trade Commission and European Commission required divestiture of certain steel and aluminum product lines in North America and Europe concurrent with close
- Revenue of ~\$50 million represents ~3% of combined Quaker Houghton revenue as expected; EBITDA of ~\$11 million excludes certain manufacturing costs and SG&A which will be part of cost synergies
- Buyer is TOTAL S.A.; sale proceeds of ~\$37 million

Quaker Houghton Remains the Global Leader in Steel and Aluminum

Adjusted EBITDA & Margin

(\$ in millions)

Houghton's adjusted EBITDA generally consistent with July 2017 proxy estimates

Foreign exchange primary driver of 3% decrease in adjusted EBITDA

Key Drivers of Changes to Houghton's Adjusted EBITDA

(Changes from 2016 to TTM Q2 '19)

- **Korea equity affiliate*** - ~\$5 million decline in adjusted EBITDA largely due to slowdown in its markets
- **Offshore hydraulics*** - ~\$3 million decline due to reduced offshore drilling resulting from lower oil prices
- **Foreign exchange** - ~\$1 million decline in adjusted EBITDA due to strengthening of US dollar
- **Organic growth** - ~\$8 million increase helps offset negatives above

*Note: Korea and Offshore are not expected to decline further
